

PROPERTIES - RESIDENTIAL

Warrington Place

Description

Warrington Place is a beautifully designed, brick community of townhomes located adjacent to shopping and just a short drive to Interstate 77 and downtown Rock Hill. A gated and fenced community, the amenities of Warrington Place are ideally suited for professionals, older adults, and retirees who are looking for the best in townhome living without using up the the time it takes to keep up lawns, landscaping, and other necessities associated with a single family home purchase. An upscale community, you will be impressed with the detail of the brick construction of your new townhome and amazed with the interior decor. Upon entry through the gates, you get a warm feeling of being at home in a beautifully maintained and constructed community.
